Tony Odarg December 16, 2020

I have been skeptical of Telegram in the past, but most of my concerns have been addressed by other people to my satisfaction. I have posting there for a while, but I thought I’d share my account with my readers. There are some fake ones out there I have seen. My official one is below, if you are following another one that looks like it, block it and report it. I will be posting all my blog posts to Telegram from now on.
